

## 310 & 320 Series One-Way Automatic Sealing In The Coupling

### Application

- Pneumatic tools, air piping and air pressure equipment

### Material

- Brass

### Standard Packing Material

- Nitrile Rubber

### Media

- ✓ Air
- ✓ 320 Series suitable for water

### Operating Temperature

-20°C to +80°C

### Max Working Pressure

1050kPa

### Note

1. 310 Series coupling has a single release button.
2. 320 Series coupling has twin release buttons.
3. 31 Series adaptors fit both 310 & 320 series couplings.
4. Different sized couplings and adaptors are interchangeable.
5. Coupling repair kit available on request.
